Scenario

Climate change, pollution, biodiversity loss, and extreme natural events are intensifying global challenges, especially in Europe, the Mediterranean, and Africa. The ecological transition and environmental restoration are urgent and essential for Europe's competitiveness, energy security, technological sovereignty, and global leadership.

As the EU Green Deal evolves, green and digital transitions remain central to Europe's industrial strategy. Circularity has become a key driver of resilience, addressing raw material scarcity, strengthening supply chains, and reducing dependencies. Environmental restoration and climate adaptation are also integral to long-term transformation.

2026 marks a critical turning point, requiring investment in innovation, infrastructure, skills, and cross-sector collaboration to ensure a sustainable and competitive future for Europe and the whole world.

Mission

Ecomondo is the the leading international event in Europe and the Mediterranean for the blue, green and circular economy technologies, services, and industrial solutions, showcasing the sector's most advanced innovations.

As a meeting point for industry professionals, institutions, policymakers, stakeholders, and local authorities, Ecomondo promises to be the platform for laying the foundations of the circular transition.

It brings together top companies across environmental services and technologies, spanning water management, waste disposal, textiles, bioenergy, soil management and protection, transport, agriculture and sustainable cities.

Ecomondo owes its expertise to Italian Exhibition Group, an international player that for over 70 years has created value for businesses and territories through high-quality trade shows and events within a global network extended across 10 countries.

Why visit

Ecomondo showcases the evolution of the green and circular economy, bringing together institutions, associations, organizations, companies, and start-ups driving the ecological transition.

It's the key platform to explore EU environmental strategies, connect with top players, and stay ahead in the sector.

EXPLORE the latest market trends, regulations, and growth opportunities

DISCOVER breakthrough technologies and innovative solutions

CONNECT with industry leaders, experts, start-ups and rising green entrepreneurs

EXPAND your network and unlock global business prospects

EXCHANGE ideas, best practices, and visionary projects

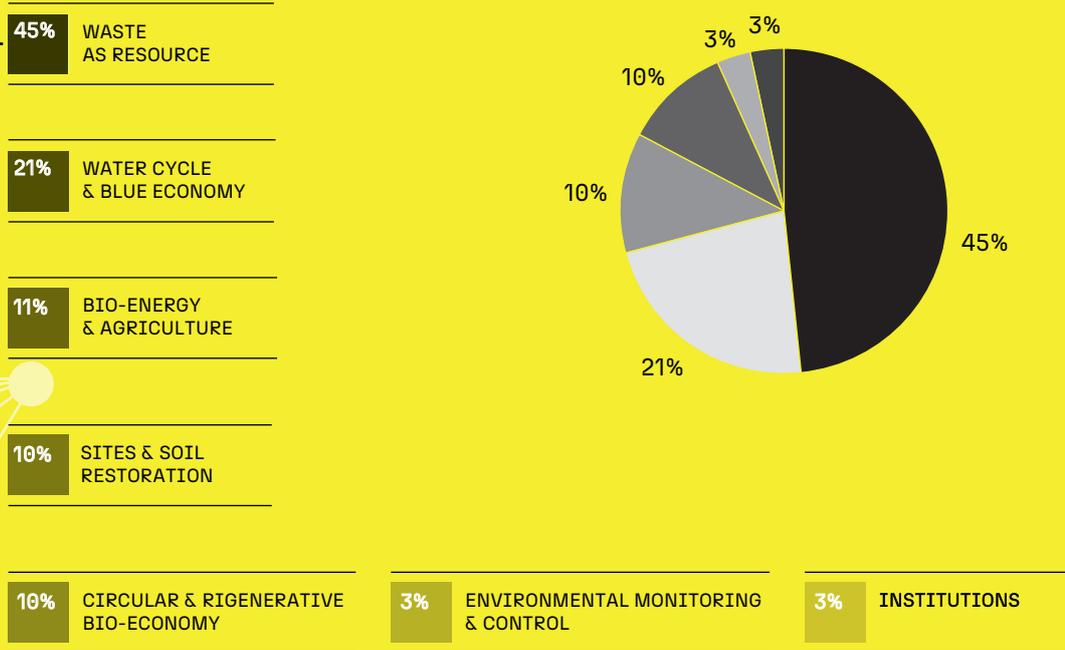

86%

of visitors are satisfied with their participation in Ecomondo, confirming the event as a key business and innovation catalyst for the green and circular economy.

* Data from the 2025 Visitors Survey.

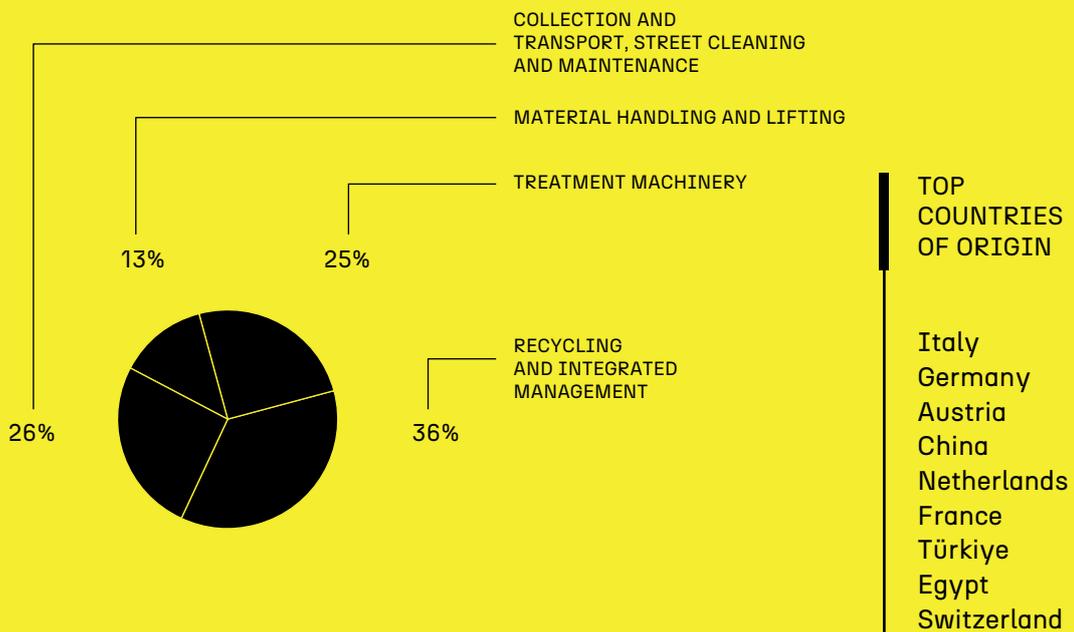

Who you will meet

From visionaries to problem-solvers, Ecomondo brings together top companies in environmental services, solutions, and technologies. Walk the halls and meet over 1,800 brands from 41 countries across the value chain:

WASTE AS RESOURCE

sector breakdown

Why exhibit

Ecomondo is a key event for companies leading the green, blue, and circular economy. By participating in Ecomondo, you align your brand with a highly reputable platform that has strong international recognition. This opportunity gives you access to a well-curated program featuring top international buyers, as well as a rich ecosystem of content, innovation, and best practices.

GENERATE high-quality leads

SHOWCASE your brand innovations and projects in a premier international setting

EXPAND your global reach by entering new and strategic markets

CONNECT with buyers, decision-makers, and partners

STAY AHEAD with insights into trends, policies, and best practices

Green at the core

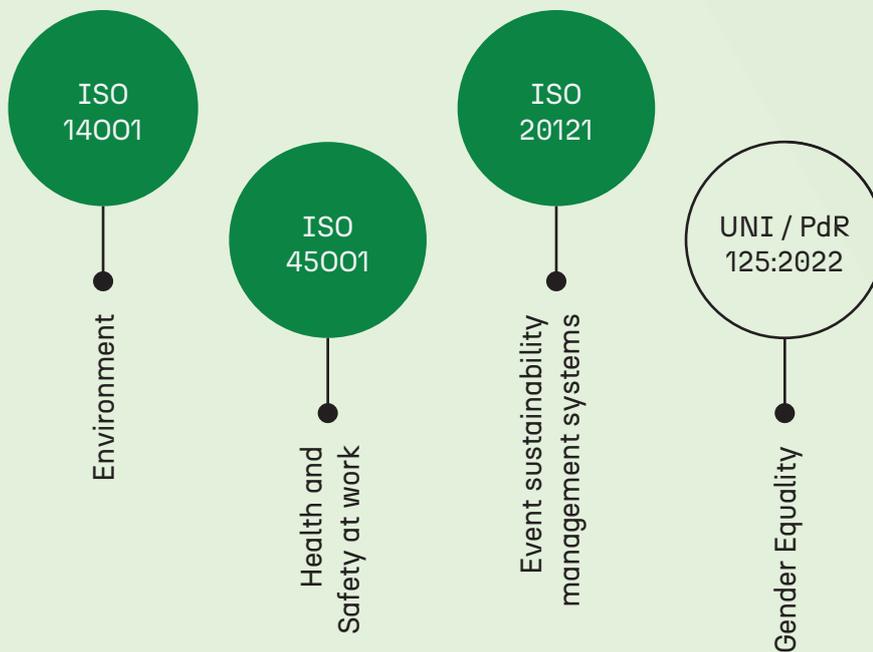

Ecomondo is committed to delivering an environmentally responsible and forward-thinking event experience.

Through strategic initiatives, sustainable practices, and carefully managed structures, we actively reduce our environmental impact. Our commitment extends to forming strategic partnerships and promoting global awareness of sustainable practices, ensuring that every aspect of our operations reflects a low-impact and resource-conscious approach.

BEST PRACTICES

- Supporting green projects;
- Fostering environmental education through school and university programs;
- Promoting gender balance at our events with the “No Women No Panel” initiative;
- Recovering surplus food to minimize waste and support local communities;

A CERTIFIED COMMITMENT AT INTERNATIONAL LEVEL

* Certifications obtained by IEG Spa, referring to the official recognitions awarded to the organiser for its commitment to quality, sustainability, and event management standards.

Sustainability starts with our venue

The Rimini Expo Centre, where Ecomondo takes place, was conceived and is managed according to principles of low environmental impact. This makes it one of the most advanced and eco-certified exhibition venues in Europe, committed to reducing its footprint and promoting responsible resource use.

BEST PRACTICES

- No carpet or use of eco-friendly carpets to reduce environmental impact;
- Zero-waste approach for installations, featuring modular and foldable furnishings;
- Collection and recycling of cigarette butts to minimize waste;
- Use of FSC and PEFC certified wood and wood products for sustainable construction;

Hosted Buyers Program

The Hosted Buyers Program is a loyalty and development initiative that focuses on connecting top-tier delegates with key players from the ecological transition industry. Developed in collaboration with Italian Trade Agency and the Ministry of Foreign Affairs and International Cooperation (MAECI), the program welcomes annually over 300 qualified top buyers from more than 70 Countries.

Participants benefit from exclusive advantages, including free accommodation, logistics support, VIP services at the International Delegations Lounge, and tailored networking opportunities with exhibitors through our matchmaking platform. This platform, called My Agenda, allows buyers to schedule one-on-one business meetings with exhibitors in advance, ensuring high-value, targeted connections during the event.

The perfect candidate for the Ecomondo Hosted Buyers Program is a professional with decisional power in purchasing in the ecological transition sectors.

Find out if you qualify:

International associations

Ecomondo collaborates with a wide network of over 90 international associations that actively promote the event and coordinate the participation of their members. Thanks to these partnerships, associated visitors benefit from dedicated logistical support, including tickets, transfers, and personalized assistance during their stay — making their experience smoother and more efficient.

Moreover, Ecomondo offers associated visitors exclusive access to technical tours, showcasing some of Italy's most advanced circular economy plants.

Ecomondo collaborated with 92 International Associations in 2025:

CENTRAL ASIA	29%
EUROPE	24%
EASTERN EUROPE	18%
CENTRAL AND SUB-SAHARIAN AFRICA	14%
ASIA	5%
LATIN AMERICA	4%
NORTH AFRICA	4%

Fast track to Ecomondo

Strategically located halfway between Northern and Southern Italy, and connected by an extensive network, Rimini is easily accessible from both within Italy and abroad.

Getting to Rimini is easier than you think!

Reaching Ecomondo is quick and simple, by car, train, or plane.

Once in Rimini, everything is right at your doorstep, with short distances and eco-friendly transportation options.

BY PLANE

Fly to Bologna "Guglielmo Marconi" International Airport, Forlì "Luigi Ridolfi" International Airport or Rimini "Federico Fellini" International Airport and reach the expo centre quickly. Shuttle services are available from major hubs.

BY TRAIN

Reach the Rimini Expo Centre by train, with the station located directly within the venue. High-speed and other trains connect all major Italian cities.

Find your way:

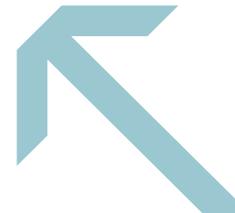

Rimini experience

Just a few kilometers from the sea and surrounded by stunning landscapes, Rimini combines over 2,000 years of history with modern vibrancy, making it an ideal destination for business and leisure. After the trade show, enjoy exclusive shopping, traditional Italian cuisine, cultural landmarks, and wellness experiences. With excellent transport connections and top business facilities, Rimini offers the perfect setting for networking, relaxation, and inspiration.

WASTE AS RESOURCE

1. Recycling and integrated waste management:
 - Technologies, plants and services for urban and industrial waste recycling
 - Integrated waste management
 - Production of secondary raw material
 - Consortia and associations
2. Treatment machinery:
 - Technologies and machinery for waste pre-treatment and treatment, sorting, and odor control
3. Material handling and lifting
4. Waste collection vehicles & containers, street cleaning and maintenance:
 - Waste collection and transport vehicles, containers, technologies and services
 - Street sweeping vehicles and road cleaning equipment
 - Disposable toilets and urban hygiene solutions
 - Sewage suction vehicles and trenchless technologies

SITES & SOIL RESTORATION

- Remediation and regeneration of contaminated sites
- Limiting land consumption, redevelopment and reuse of brownfield sites
- Environmental damage prevention and emergency respons

CIRCULAR & REGENERATIVE BIO-ECONOMY

- Renewable chemistry: bioproducts, bioplastics
- Ecodesign of products and processes
- Platforms and repair services

SECTORS

EARTH OBSERVATION & ENVIRONMENTAL MONITORING

- Solutions based on AI, Big Data and satellite data applied to predictive models for climate change monitoring, mitigation and adaptation
- Chemical and clinical laboratories for monitoring and control of water, air, soil, and environment
- Monitoring and analytical instrumentations
- Research centers

BIO-ENERGY & AGRICULTURE

- Bioenergy: biomass, bioliquids
- Biogas: processes, products
- Cogeneration
- Precision farming

WATER CYCLE

- Water, wastewater and sludge treatment
- Pumps & valves, components
- Water supply systems

BLUE ECONOMY

- Ports, coasts, coastal activities
- Cleaning and regeneration of the hydrosphere
- Fishing, aquaculture and marine biotechnology
- Desalination

Districts and Key topics

TEXTILE

The Textile District is the place-to-be for sustainability in the textile industry. A dynamic and constantly growing hub where to explore the future of the sector through key topics that concern the entire supply chain: eco-design and production, waste collection, waste treatment and recycling, secondary raw materials. The district emphasizes future developments aligned with sustainability norms, technological innovation, and transparency.

CIRCULAR & HEALTHY CITY

The district brings together cutting-edge technologies and forward-thinking projects that pave the way for more circular, digital, and healthier cities. It explores how urban environments can evolve through AI- and IoT-powered solutions, sustainable building design, urban regeneration, and integrated public health strategies.

TRENCHLESS

The Paper Summit is an innovative format designed to place sustainability and circularity at the core of the paper supply chain. The entire industry will participate to showcase the excellence of one of the most circular sectors in Europe, while also addressing the challenges posed by the emerging European regulatory framework. It serves as a platform to meet industry professionals and the entire consortium-associative community to discuss the future development of the industry.

DISTRICT

INNOVATION DISTRICT

The Innovation District is Ecomondo's open innovation hub, designed to accelerate the transition to a circular and sustainable economy.

It brings together start-ups, scale-ups, corporates, investors, research centers and institutions, creating a space where innovative solutions meet market needs. Through collaboration, technology transfer and business matching, it supports the development, testing and scaling of circular economy solutions, fostering concrete partnerships and innovation-driven growth.

LORENZO CAGNONI AWARD FOR GREEN INNOVATION

Ecomondo celebrates innovation through the *Lorenzo Cagnoni* Award for Green Innovation, recognizing the most advanced technologies across the exhibition sectors both from Italy and abroad.

PROJECTS

Events

Curated by a prestigious Technical Scientific Committee of 90 experts — including leading scientists, industry professionals, policymakers, and institutional representatives from European and international organizations — Ecomondo's conference program delivers high-quality, forward-looking, and globally relevant content. The agenda is closely aligned with key European strategies and policy frameworks — such as the European Water Resilience Strategy, the EU Bioeconomy Strategy, the Circular Economy Act, the Biotech Act, the Clean Industrial Deal, the Ocean Pact, and the Mediterranean Pact — fostering dialogue and collaboration to strengthen resilience, accelerate innovation, and promote sustainable growth across EU Member States and the wider Mediterranean macro-region.

The program features contributions from high-level representatives of major international organisations — including the European Commission, OECD, FAO, EEA, and ISWA — alongside core EU Partnerships and Missions, leading national authorities such as the Italian Ministries of Environment and Energy Security, Industry, and University and Research, and key trade federations, research bodies, and innovation consortia.

STATES GENERAL OF THE GREEN ECONOMY

The States General of the Green Economy is the leading annual event for the Italian green economy, promoted by the Fondazione Sviluppo Sostenibile, in collaboration with the Ministry of the Environment and Energy Security, and under the patronage of the European Commission and the Ministry of Enterprises and Made in Italy. The event provides updates on green economy sectors and facilitates international comparisons of climate performance, policies, and investments across the USA, China, Europe, and, beginning in 2025, Africa.

CALL FOR PAPERS

Ecomondo presents its Call for Papers, inviting researchers, professionals, and institutions to submit abstracts presenting innovative research, applied projects, or successful case studies in the fields of the green and circular economy.

* Data from 2025 edition.

Key topics

03

ECOMONDO 2026

Ecomondo and its event program offer a forward-looking platform to explore the most relevant themes driving the ecological transition. Through high-level discussions, innovation showcases and policy dialogues, the event brings together diverse sectors to shape a sustainable future.

Circular transformation of key industrial sectors: plastics and packaging, textiles, WEEE, energy, construction, food and drink, paper, biomaterials and water

Innovative Circular Solutions for the Textile Industry

Digitisation and AI as enablers of the circular economy and ecological transition

Green/blue and digital transitions in the Mediterranean and African regions

Water-resilient infrastructure for climate adaptation and security

Water Efficiency First: industrial transition, agriculture and circular water use
Regenerative bioeconomy: soil health, freshwater and marine systems, and biodiversity restoration

Sustainable eco-design and products repairing and upgrading

Strategic and critical raw materials: identification, recovery, recycling and reuse

Circular and healthy cities as engines of sustainable urban transformation

Environmental monitoring and climate intelligence for the prevention and management of extreme natural events, including satellite

Earth observation

Start-Ups and Scale-Up

ESG, Green and Sustainable Finance

Education, skills, green jobs and communication

25

A global community

Ecomondo is more than a trade fair — it is a strategic waypoint on the roadmap to a sustainable global economy.

As a true community catalyst, we have built an international network of events that connects a growing ecosystem of stakeholders, supporting them in working more ethically and responsibly through new digital technologies.

ECOMONDO MEXICO

Ecomondo Mexico is the key event for growth in the Latin American environmental sector, focusing on waste management, bioeconomy, and sustainable development.

It offers a unique opportunity for companies and stakeholders to enter the Mexican and Latin American markets.
