COMMUNITY GREEN&TECH

As a true community catalyst, we have built an international network of events that connects a growing ecosystem of stakeholders, supporting them in working more ethically and responsibly through new technologies.

Each event represents a key step in this collective journey,

focusing on circular economy, clean energy, sustainable mobility, and green innovation — with local roots and a global vision.

Being part of this community means gaining year-round access to international insights, business opportunities, and meaningful connections that extend far beyond the days of the event in Rimini.
