

ITALY-CHINA CIRCULAR ECONOMY FORUM

“New Frontiers of the Circular Economy: Italy and China Towards an Advanced System for Resource Recovery and Transformation”

This first part of the Forum is designed as a concrete opportunity for Italian and Chinese companies to develop business relationships and initiate new collaborations, enhancing prospects for cooperation in building an innovative industrial and economic vision, with particular attention to the challenges of climate change.

The initiative also aims to strengthen strategic synergies and promote the exchange of ideas and expertise between companies and institutions from both countries, thereby increasing their joint impact in global sustainability initiatives.
