circular city
& mobility

Waste and resources:

Integrated management and exploitation of waste and materials.

Circular bioeconomy:

Inspired by the new economic and cultural model of the Circular Bioeconomy
Optimization of renewable organic resources
conversion into organically based, bioenergy-derived products.
Bioenergies end anaerobic digestion;
Agrifood & Blue Growth.

Decontamination and hydrogeological risk:

Technologies for reclamation and management of contaminated sites; systems and solutions for preventing hydrogeological risks.

Water:

Integrated water cycle supply chain, from collection to its return to the environment.

Chemical analysis and monitoring:

Instruments, analysis and consulting with regard to the environment food and materials.

Energy:

Focus on photovoltaic, wind and storage, solutions for energy efficiency in industrial and residential sectors.

Circular city & Mobility:

ICT & IOT smart city
Solutions for sustainable intermodal, connected mobility and sustainable cities.

Why You Should Exhibit?

Showcase your brand at the forefront of a rapidly growing market

Generate new sales prospects in the first event of its kind in Mexico

Reach an audience of decision makers from all segments of the solar industry

Attendee Profile

Installers
Solar systems integrators
Solar technology suppliers
Solar distributors
Power Utility
Project engineering

EPC contractors
Manufacturers
Consulting services
Investors
IPP (Independent Power Producers)

Law / legal services
Press
Federal, state and municipal governments and their dependencies
Solar park owners

Real estate developers
Corporate developers
Industrial park developers
Sectoral institutions
Research and innovation centers, universities

Raw Space 18 sqm minimum
USD 420 / sqm + VAT

EARLY
BIRD RATE
USD 380 /
sqm + VAT

Includes:
Exhibitor badges, Visitor tickets for your clients & exhibitor directory listing
