

The logo for PEMO PUMPS is prominently displayed at the top. The word 'PEMO' is in a bold, orange, sans-serif font, enclosed within a thick orange rounded rectangular border. Below it, the word 'PUMPS' is in a similar bold, orange, sans-serif font. The background of the entire page is a dark blue image showing various industrial pumps and machinery, with a lighter blue overlay where the text is placed.

PEMO

PUMPS

PEMO abrasion-resistant centrifugal pumps are used to transfer biomass material such as **OFMSW or liquid manure** to storage and decantation tanks, for loading separators and for feeding **mesophilic or thermophilic digesters** or recirculating digestate thanks to PEMO non clogging technology.

The widest range of heavy-duty slurry pumps for tough abrasive and acidic applications.

Hard metal and rubber lined pumps with customized design for single-stage, multi-stage, submersible and vertical configurations.

Some of the most appreciated features are:

- Longer life, thanks to **ABRASION-RESISTANT** components.
- **Non clogging**, thanks to special impeller design.
- Flow rate: up to **2000 m³/h**.
- Head: up to **160 m.c.l.**
